---

Dear Mr Lek,

I owe this appraisal to you . I so want to express my great thanks to you for your assistance in getting the accounting system back after my bad experience in the crash of my computer hard disk.

The nightmare I imagined is lessened by having you assisting me in the reinstatement of the situation back to normal.

Your patient and coolness in handling the matter comforts and calm me down for I need not do much depth explanation to you to grasp the various problems that arised .

You comprehend well in the system, also on the reporting and accounting aspect that make me feel easy talking to you and your response to resolving the problems with a solution is quick.

I thank you once again for your great help.

Regards.

Mary Quake
